

Call for participation in EBU VCIP interoperability tests - 2013

What?

The EBU Video Contribution Over IP (EBU VCIP) group is holding two interoperability tests on near future video over IP networking technologies:

1. The newly standardised SMPTE 2022 – 5/6 allowing the carriage and efficient protection of uncompressed video over IP.
2. JPEG 2000 transport over IP which is used on several contribution networks for high quality low latency video transport.

The test reports will be anonymous for all participating manufacturers and will be available to EBU members, test participants and partners.

When?

- Test 1: SMPTE 2022-5/6 – **28th – 31st May'13.**
- Test 2: JPEG2000/TS over IP – **October'13.**

Who can participate?

Equipment manufacturers, Broadcasters .

Where?

- Test 1 : BBC R&D Research Center – London, UK.
- Test 2 : EBU - Geneva (CH) / IRT - Munich (DE) / BBC R&D – London (UK).

How to register?

To register to one or both tests please send an email to ecoffey@ebu.ch with the following information:

- **Company name**
- **Contact person (Name, Email, Phone).**
- **Equipment description.**
- **Selected test :**
 - **Test 1 (SMPTE 2022-5/6): Please send your information before the 30th of April 2013.**
 - **Test 2 (JPEG2000/TS/IP): Please send your information before the 15th of September 2013 for participation.**
