

## Use of the EBU R 128 logo

The EBU R 128 logo (the Logo) is the symbol of the EBU Recommendation R 128 on Loudness normalisation and permitted maximum level of audio signals. The copyright of the Logo is exclusively owned by the EBU.

Use of the Logo by third parties is allowed subject to the following conditions:

- Any company which develops, manufactures, distributes or otherwise markets, advertises or promotes products or equipment (e.g. a "family of products") which support **EBU R 128** by implementing loudness metering according to **EBU Tech Doc 3341**, **EBU Tech Doc 3342** or both, is entitled to use the Logo, free-of-charge, in order to demonstrate the product's or equipment's technical compliance with the EBU R 128 specification;
- The Logo must always be used in its entirety, but may be scaled down or up in size, provided that the aspect ratio remains unchanged. The Logo may be used in colour, gray-scale or black and white, but should not be reproduced in any other colour combination or scheme;
- Use of the Logo does not imply any form of membership of the EBU or participation in any of its groups or committees;
- Any misleading, fraudulent or otherwise *mala fide* use of the Logo (e.g. for non-compliant products or equipment) will be considered an infringement of the copyright licence granted herewith.

---

**Note:** This is a form of self-compliance. The EBU is not responsible for testing, controlling or verifying the actual compliance of any product or equipment with the EBU R 128 specification. Any claim of compliance with the EBU R 128 specification remains entirely the user's own responsibility.
