OCEAN: The OCEAN project, funded by the European Commission, focuses on the "Networked Media and 3D Internet" strategic objective of the ICT 4th call of the Seventh Framework Programme (FP7). OCEAN will design a new open content delivery framework that optimizes the overall quality of experience to end-users by caching content closer to the user than traditional CDNs do and by deploying network-controlled, scalable and adaptive content delivery techniques.

EBU: The European Broadcasting Union is the largest association of national broadcasters in the world. We promote cooperation between broadcasters and facilitate the exchange of audiovisual content. The EBU works to ensure that the crucial role of public service broadcasters is recognised and taken into consideration by decision-makers.

IDATE: Founded in 1977, IDATE is one of Europe's foremost market analysis and consulting firms, whose mission is to provide assistance in strategic decision-making for its clients in the Telecom, Internet and Media industries.
