These prelimenary testsequences were generated with a Sony HDC1500 camera. 1080p/50 recorded in 10bit 4:2:2 via dual link on a DVS server.

Postprocessing:
1080p/50 10bit converted to 1080p/50 8bit

1080p/50 8bit converted to 1080i/25 via line/pixel averaging over two 1080p/50 frames

1080p/50 8bit converted to 720p/50 via low pass filter and sinc window using DVS rendering
